

MORPHOLOGY AND STRUCTURE OF THE  $\text{Cu}^0/\text{CuO-ZnO-Al}_2\text{O}_3$  SYSTEM  
II. THERMAL ANALYSIS OF THE SYSTEM

**Abstract:** *A study of the thermogravimetric and thermodifferential effects that occur at the heating into air until 1173 K of the  $\text{Cu}^0/\text{CuO-ZnO-Al}_2\text{O}_3$  system was realized. These effects are witnessed by the TG (thermogravimetry), DTA (differential thermal analysis) and DTG (differential thermal gravimetry).*
